Conquest Health and Fitness Foundation
presents the 2015

Conquest Health and Fitness Foundation is proud to announce the 5th Annual **Youth Sports Summit**! This is a one-day community based event for families and youth. It will bring together an array of community organizations and programs geared towards getting kids active. Vendors will include representatives from local club and travel teams of all sports, as well as fitness activity groups like dance, martial arts, gymnastics, and cheer to name a few! All kids in attendance will have the opportunity to participate in contests, live demonstrations, and activities in almost every sport or activity represented in the 54,000 square foot field house.

Organization behind the Event

The Conquest Health and Fitness Foundation was established in the Spring of 2014 as a non profit organization. Our mission is to improve the quality of life for individuals by promoting an active lifestyle through health, fitness and education. The Youth Sports Summit has a rich history of living out its own mission which is to combat childhood obesity and promote healthy, fit, and active lifestyles for children. Because the Foundation shares this mission, it is eager to take over the event to further raise awareness to this issue.

According to the Centers for Disease Control and Prevention too many Americans aren't getting enough physical activity, and this includes our youth. One-third of children living in the United States are overweight or obese. The Foundation wants to change this by inspiring and empowering children and their families to embrace a healthy and active lifestyle through the introduction of sports and recreational activities.
